

Yoruba Rose
DAGMAR MOMBACH, INGO MAURER & TEAM 2017

Paper, metal, stainless steel, silicone. Yoruba Rose is a light object that enchants through perfection and grace. The sheet of paper is almost circularly stretched on light metal wires and strives upwards. The harmonious expression of the model and the extremely pleasant light make it the ideal light source in spaces where one rests. Yoruba Rose can also be produced as a standard lamp on request. Just as in all other MaMo Nouchies, the lampshade consists of Japanese paper, which has to undergo a special manufacturing process in Dagmar Mombach's studio. The light source is an LED module, provided with a cooling element, developed by Ingo Maurer especially for the MaMa Nouchies. The light is warm and soft, and can hardly be distinguished from conventional halogen light. Yoruba Rose is usually available for immediate delivery.

**Light source**
LED 9 W, 970 lm, 2700 K, CRI>90, EEC F (A-G). With built-in LEDs. The light source is not exchangeable by the user, but by an electrian.

**Technical data**
For 100 – 240 volts. Dimmable.

**More info**
Available since autumn 2017. Yoruba Rose can also be produced as a standard lamp on request.
