

INGO MAURER

YaYaHo Element 1
INGO MAURER UND TEAM 1984

Metal, glass, plastic. Adjustable horizontally along the wires.

Light source

Socket G4, max. 20 W, compatible with bulbs of the energy classes A+ - D. We advise users to build up a small stock of suitable halogen lamps. So far, LED retrofits have not achieved comparable light quality and are not satisfactory.

Technical data

Part of the YaYaHo system, for 12 volts.
