

INGO MAURER

Licht Licht
REYER KRAS 1993

Wire frame with two Lexan films. Particularly suited for corner lighting. Supplied with four sheets of films: two blank and two inscribed with a haiku in Japanese and English that can be combined freely. When the light turns off, the name "Licht Licht" appears in fluorescent characters on the films.

Light source

Socket E14, max. 40 W, compatible with bulbs of the energy classes A++ - E.

Technical data

For 230 or 125 volts.
