

Ringelpiez Wall
INGO MAURER UND TEAM 2017

Aluminium, carbon fiber, plastic. Almost as long as the floor lamp, the pull-out carbon fibre rod projects far into the room. The wall mounting is a ball joint, the positioning is correspondingly flexible. Ringelpiez Wall can also be fixed to the ceiling and, of course, can also be used with the Frivoloso diffuser. // March 2019: In the interest of preventive consumer safety, we are recalling the transformers of the Ringelpiez models Ringelpiez Floor, Table and Wall with immediate effect. The recall only affects models with a “Kaoyi” brand transformer delivered until early March 2019. We ask users of these models to disconnect the transformer from the mains and contact Ingo Maurer GmbH to obtain a replacement. We apologize for the inconvenience. Since end of May 2019 new Ringelpiez specimens with a new transformer are available.

Light source
LED, 3000 K, 3520 lm, CRI 95,25 W, EEC A+. With built-in LEDs. Light source not exchangeable by user.
